

# MAKOTO M. KELP

L.S. Skaggs Applied Science Building 3279, University of Utah, Salt Lake City, UT 84112

makoto.kelp@utah.edu ◊ <https://makotokelp.com>

## EDUCATION

|                                                     |             |
|-----------------------------------------------------|-------------|
| <b>Harvard University</b>                           | 2018 – 2023 |
| <i>Ph.D.</i> , Earth and Planetary Sciences         |             |
| <i>S.M.</i> , Environmental Science and Engineering |             |
| <b>Reed College</b>                                 | 2012 – 2016 |
| <i>B.A.</i> , Chemistry                             |             |

## PROFESSIONAL APPOINTMENTS

|                                                                                   |             |
|-----------------------------------------------------------------------------------|-------------|
| <b>Assistant Professor</b> , University of Utah                                   | 2026 –      |
| <i>Department of Atmospheric Sciences</i>                                         |             |
| <b>Faculty Fellow</b> , Wilkes Center for Climate Science & Policy                | 2026 –      |
| <i>University of Utah</i>                                                         |             |
| <b>NOAA Climate &amp; Global Change Postdoctoral Fellow</b> , Stanford University | 2023 – 2025 |
| <i>Host: Noah Diffenbaugh, with Marshall Burke</i>                                |             |
| <b>Graduate Research Assistant</b> , Harvard University                           | 2018 – 2023 |
| <i>Advisors: Daniel Jacob, Loretta Mickley</i>                                    |             |
| <b>Junior Research Scientist</b> , University of Washington                       | 2016 – 2018 |
| <i>Advisor: Julian Marshall</i>                                                   |             |

## RESEARCH INTERESTS

My research centers on applying machine learning and data-driven methods to uncover new perspectives in atmospheric chemistry and human-environmental systems. I place a special emphasis on exploring the interplay among air pollution, fires, and society.

## HONORS AND AWARDS

|                                                                                                        |             |
|--------------------------------------------------------------------------------------------------------|-------------|
| 2026 Cohort of GeoCAFE scholars (NSF Network on Climate Change and Health for early-career scientists) | 2026        |
| Utah President's Nominee, Fellowship for Science and Engineering, David and Lucile Packard Foundation  | 2026        |
| NeurIPS AI4Science Dataset Proposal Competition Winner                                                 | 2025        |
| NOAA Climate & Global Change Postdoctoral Fellowship                                                   | 2023 – 2025 |
| Atmospheric Chemistry Colloquium for Emerging Senior Scientists (ACCESS XVII)                          | 2023        |
| Harvard University Bok Center Certificate of Distinction in Teaching                                   | 2019, 2022  |
| AGU Outstanding Student Presentation Award                                                             | 2019        |
| National Science Foundation STEM Scholar                                                               | 2013 – 2016 |

## PUBLICATIONS (\*SUBMITTED, ADVISEE, <sup>†</sup>EQUAL CONTRIBUTION)

h-index: 18 ([Google Scholar](#)), Published first-authored papers (9) and co-authored papers (16):

## INVITED TALKS AND SEMINARS (\*UPCOMING)

---

- \*2026 University of Reading – Meteorology
- \*2026 NASA GMAO Seminar Series
- 2026 AGU/AMS Climate & Health Showcase
- 2026 American Thoracic Society Workshop
- 2026 University of Toronto – Noble Seminar Series
- 2026 Utah Center for Data Science
- 2026 Stanford Woods Institute – Wildfire Working Group

2025 Cascadia Wildfire & Urban Smoke Webinar  
 2025 CPAESS Discovery Series Seminar  
 2025 UC Berkeley – CEE Environmental Engineering Seminar  
 2024 UC Irvine – Earth System Science  
 2024 NOAA Climate and Global Change Summer Institute  
 2024 MIT – Civil and Environmental Engineering  
 2024 University of Washington – Atmospheric Science and Computer Science  
 2024 University of Utah – Atmospheric Science  
 2024 AI for the Study of Environmental Risk (AI4ER) seminar, University of Cambridge  
 2023 Southwest Fire Science Consortium and Fire Adapted New Mexico Learning Network  
 2023 PSEG Institute for Sustainability Studies with The Trust for Public Land, Montclair State University  
 2023 Atmospheric Chemistry Colloquium for Emerging Senior Scientists (ACCESS) XVII, Brookhaven National Lab  
 2023 NASA GISS  
 2023 Columbia University  
 2023 Science in the News, Harvard University  
 2023 AGU/AMS GeoHealth Showcase  
 2023 MIT Atmospheric Chemistry Colloquium  
 2023 Stanford University  
 2022 Royal Meteorological Society Atmospheric Chemistry Special Interest Conference  
 2022 Pennsylvania Department of Environmental Protection Air Monitoring Committee Workshop  
 2022 Karlsruhe Institute of Technology  
 2022 University of Washington  
 2022 University of Illinois at Urbana-Champaign Advanced Environmental Engineering Seminar  
 2022 EPA Model Applications Team Meeting

#### **SELECTED CONFERENCE PRESENTATIONS (\*INVITED)**

---

2026 Deep Learning for Science (DL4Sci), Lawrence Berkeley National Laboratory Summer School, CA (Poster)  
 2025 AGU Fall Meeting, New Orleans, LA (Talk)  
 2025 NeurIPS 2025 Workshop AI4Science, San Diego, CA (Talk)  
 2025 Gordon Research Conference in Atmospheric Chemistry, Newry, ME (Poster)  
 2024 AGU Fall Meeting, Washington D.C. (Talk)  
 \*2024 Health Effects Institute Annual Conference, Philadelphia, PA (Talk)  
 2023 AGU Fall Meeting, San Francisco, CA (Talk)  
 \*2023 Meteorology and Climate - Modeling for Air Quality, Session: “Breakthrough Innovations in Atmospheric & Air Quality Modeling”, UC Davis (Talk)  
 2023 Gordon Research Conference in Atmospheric Chemistry, Newry, ME (Poster)  
 2023 AMS Annual Meeting, Denver, CO (Talk)  
 2022 AGU Fall Meeting, Chicago, IL (Talk)  
 \*2022 Atmospheric Chemical Mechanisms, Session: “Mechanism Development and Reduction”, UC Davis (Talk)  
 2022 AMS Annual Meeting, Virtual (Talk)  
 2022 10th International GEOS-Chem Meeting, Washington University in St. Louis (Talk)  
 \*2022 ECMWF Machine Learning Workshop (Talk)  
 2021 AMS Annual Meeting, Virtual (Talk)  
 \*2020 AGU Fall Meeting, Virtual (Talk)  
 2020 Atmospheric Chemical Mechanisms Conference, Virtual (Talk)  
 2019 AGU Fall Meeting, San Francisco, CA (Poster)

2019 Deep Learning for Science (DL4Sci) Summer School, Lawrence Berkeley National Laboratory, CA (Poster)  
 2018 AGU Fall Meeting, Washington D.C. (Poster)

## TEACHING EXPERIENCE

---

**University of Utah** Atmospheric Sciences  
 ATMOS/BIOLOGICAL/GEO 1120: Introduction to Earth System Science **Fall 2026**

**Stanford University** Civil and Environmental Engineering  
 CEE265F/SUSTAIN248: Environmental Governance and Climate Resilience  
 Guest Lecturer **Winter 2025**

**Harvard University** Department of Earth and Planetary Sciences  
 EPS 200: Graduate-level Atmospheric Chemistry and Physics  
 Teaching Fellow **Fall 2019, Fall 2020, Fall 2022**  
 Guest Lecturer **Fall 2022**

Derek Bok Center for Education & Learning  
 Teaching Certificate **2023**

**Reed College** Department of Chemistry  
 Chem 101: Molecular Structure and Properties  
 Chem 102: Chemical Reactivity  
 Chem 230: Environmental Chemistry  
 Laboratory Teaching Assistant **2015-2016**  
 Tutor, Grader **2013-2016**

## RESEARCH MENTORING

---

### Undergraduates:

- Jason Hu (Winter 2025 – Summer 2026, Stanford University): “*Mechanistic Interpretability of Earth system foundation models for air pollution*”
  - ★ Oral presentation at Stanford Sustainability Data Science Conference (2026; Undergraduate Rising Star Award)
  - ★ Poster presentation at AGU Fall Meeting (2025)
- Howard Qin (Spring 2025-Fall 2025, Stanford University): “*Physics Benchmarking for AI Numerical Weather Prediction Models*”
  - ★ Poster presentation at AMS Annual Meeting (2026)
- Nia McKenzie (Summer 2025, Spelman College): “*Developing a comprehensive and centralized database of prescribed fire in the United States*”
- Emily Jones (Summer 2025, Stanford University): “*Tracking Air Pollution from Unregulated Emissions at NASCAR Races and NFL Tailgates*”
- Rebecca Sandoval (Summer 2024, University of California, Santa Barbara): “*Evaluating prescribed fire emissions in California*”
- Lyna Kim (Spring 2024 –Summer 2025, Stanford University): “*Physically interpretable machine learning for climate and weather forecasting*”
  - ★ Poster presentation at AGU Fall Meeting (2024)
- Christian Chiu (Summer 2023 – Fall 2023, Harvard University): “*Uncovering latent VOC emissions and spatiotemporal drivers of urban ozone in changing NO<sub>x</sub> regimes*”
- Karina Chung (Summer 2023 – Fall 2024, Harvard University): “*Google Earth Engine applications for wildfire smoke risk in the Western United States*”
  - ★ Lead author of Chung et al. (2025) *Environ. Sci. Technol.*, [undergraduate student feature](#)
  - ★ Selected for AGU/AMS Climate and Health Showcase (2024)
  - ★ Oral presentation at AGU Fall Meeting (2023)

- Greta Schultz (Summer 2023, University of Wisconsin-Madison): “Emergency mobile monitoring for California wildfire smoke”
  - ★ Poster presentation at AMS Annual Meeting (2024)
- Timothy Fargiano (Summer 2022 – Fall 2022, Harvard University): “Optimal placement of PM<sub>2.5</sub> air quality sensors in the US: An approach to target environmental injustice”
  - ★ Co-author on Kelp et al. (2023b)
- Margaret Schultz (January 2022 – December 2022, Harvard University): “Real-time high-resolution downscaling of fine particulate matter (PM<sub>2.5</sub>) air quality in the United States using machine learning”
  - ★ Year-long environmental engineering senior thesis: [senior project spotlight](#)
- Samuel Lin (Summer 2021- Fall 2021, Harvard University): “Optimal air quality sensor placement in the United States”
  - ★ Co-author on Kelp et al. (2023b, 2022a)
- Marie Panday (Summer 2021, University of Maryland): “Trends in and Reconstruction of Smoke Days across the United States”
  - ★ Co-author on Liu et al. (2024)
- Kent Toshima (Summer 2020 - Summer 2021, Harvard University): “Application of deep learning to detection of wildfire smoke in HMS over North America”
- Miah Caine (Summer 2020 - Spring 2021, Harvard University): “Agreement between the HMS Product and Ground-Level Smoke in the Pacific Northwest”
  - ★ Co-author on Liu et al. (2024)

#### Committees as member:

- Haley Humble (UU ATMOS), PhD Committee 2026-
- Ben Hartvigsen (UBC EOAS), PhD Committee 2026-
- Zack Zounes (UU ATMOS), PhD Committee 2026-
- Corey Bois (UU ATMOS), PhD Committee 2025-
- Vanessa Sun (UU ATMOS), PhD Committee 2024-

## SYNERGISTIC ACTIVITIES

---

#### International:

**Selected participant** for Deep Learning for Science Summer School, Lawrence Berkeley National Lab (2026)

**Co-Chair** for Tropospheric Ozone Assessment Report, Phase II (TOAR-II) Machine Learning for Tropospheric Ozone (ML4O3) Working Group (2023 – 2025)

**Co-leader** of [Statistical Learning in Atmospheric Chemistry \(SLAC\)](#) group, seminar series (2022 – Present)

**Proposal reviewer** for NASA, NSF, Spark Climate Solutions, NSERC (Canada)

**Peer reviewer** for *Nature*, *Science*, *Atmospheric Chemistry and Physics*, *Geophysical Research Letters*, *Environmental Research Letters*, *JAMES*, *GeoHealth*, *Environmental Science & Technology*, *Earth’s Future*, *ES&T Air*, *Geoscientific Model Development*, *Nature Ecology & Evolution*, *Atmospheric Environment*, *ACS Earth and Space Chemistry*, *Communications Earth & Environment*, *Environmental Research Communications*, *Atmospheric Pollution Research*, *Environmental Data Science*, *Environmental Science*, and *Pollution Research*

#### National:

**Co-Chair** for Atmospheric Chemistry Gordon Research Seminar (GRS) (2025)

**Technical Program Committee** for Atmospheric Chemical Mechanisms conference (2024)

**Session Convener** at AGU Fall Meeting:

- Data-Driven Methods for Quantifying Atmospheric Composition: Advances in Computation and Statistical Learning, co-convener (2023, 2024, 2025)
- Air Pollution and Meteorology Extremes: Interactions, Trends, and Public Health Dimensions (2025)
- Managing Air Quality and Public Health Under Climate Change: Health Impacts, Mitigation Policy, and Adaptation Strategies, co-convener (2024)
- Prescribed Fires and Land Management in North America, primary convener (2023)
