

# MAKOTO M. KELP

Y2E2 Building Room 333, Stanford University, Stanford, CA 94305

mkelp@stanford.edu ◊ <https://makotokelp.com>

## EDUCATION

|                                                                                                                                 |             |
|---------------------------------------------------------------------------------------------------------------------------------|-------------|
| <b>Harvard University</b><br><i>Ph.D.</i> , Earth and Planetary Sciences<br><i>S.M.</i> , Environmental Science and Engineering | 2018 – 2023 |
| <b>Reed College</b><br><i>B.A.</i> , Chemistry                                                                                  | 2012 – 2016 |

## PROFESSIONAL EXPERIENCE

|                                                                                                                                              |                   |
|----------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| <b>Assistant Professor</b> , University of Utah<br><i>Department of Atmospheric Sciences, Wilkes Center for Climate Science &amp; Policy</i> | Starting Jan 2026 |
| <b>NOAA Climate &amp; Global Change Postdoctoral Fellow</b> , Stanford University<br><i>Host: Noah Diffenbaugh</i>                           | 2023 – Present    |
| <b>Graduate Research Assistant</b> , Harvard University<br><i>Advisors: Daniel Jacob and Loretta Mickley</i>                                 | 2018 – 2023       |
| <b>Junior Research Scientist</b> , University of Washington<br><i>Advisor: Julian Marshall</i>                                               | 2016 – 2018       |

## RESEARCH INTERESTS

My research centers on applying data-driven methods, including machine learning and computational sensing, to uncover new perspectives in atmospheric chemistry and land-climate-human interactions. I place a special emphasis on exploring the interplay among fires, climate, and society.

## AWARDS AND FELLOWSHIPS

|                                                                               |             |
|-------------------------------------------------------------------------------|-------------|
| NOAA Climate & Global Change Postdoctoral Fellowship                          | 2023 – 2025 |
| Atmospheric Chemistry Colloquium for Emerging Senior Scientists (ACCESS XVII) | 2023        |
| Harvard Bok Center Certificate of Distinction in Teaching                     | 2019, 2022  |
| AGU Outstanding Student Presentation Award                                    | 2019        |
| National Science Foundation STEM Scholar                                      | 2013 – 2016 |

## IN-PREPARATION (†UNDERGRADUATE ADVISEE)

---

- Chung, K.<sup>†</sup>, Liu, T., **M. Kelp**, and L.J. Mickley. SMRT-FIRE: Smoke Management Risk Tool for wildland fires
- **Kelp, M.**, C. Chiu<sup>†</sup>, and L.J. Mickley. Uncovering latent VOC emissions and spatiotemporal drivers of urban ozone in changing NO<sub>x</sub> regimes: A data-driven case study of Los Angeles and Chicago

## INVITED TALKS AND SEMINARS

---

2024 MIT – Civil and Environmental Engineering  
2024 University of Washington – Atmospheric Science and Computer Science  
2024 University of Utah – Atmospheric Science  
2024 AI for the Study of Environmental Risk (AI4ER) seminar, University of Cambridge  
2023 Southwest Fire Science Consortium and Fire Adapted New Mexico Learning Network  
2023 PSEG Institute for Sustainability Studies with The Trust for Public Land, Montclair State University  
2023 Atmospheric Chemistry Colloquium for Emerging Senior Scientists (ACCESS) XVII, Brookhaven National Lab  
2023 NASA GISS  
2023 Columbia University  
2023 Science in the News, Harvard University  
2023 AGU/AMS GeoHealth Showcase  
2023 MIT Atmospheric Chemistry Colloquium  
2023 Stanford University  
2022 Royal Meteorological Society Atmospheric Chemistry Special Interest Conference  
2022 Pennsylvania Department of Environmental Protection Air Monitoring Committee Workshop  
2022 Karlsruhe Institute of Technology  
2022 University of Washington  
2022 University of Illinois at Urbana-Champaign Advanced Environmental Engineering Seminar  
2022 EPA Model Applications Team Meeting

## SELECTED CONFERENCE PRESENTATIONS (\*INVITED)

---

\*2024 Health Effects Institute Annual Conference, Philadelphia, PA (Talk)  
2023 AGU Fall Meeting, San Francisco, CA (Talk)  
\*2023 Meteorology and Climate - Modeling for Air Quality, Session: “Breakthrough Innovations in Atmospheric & Air Quality Modeling”, UC Davis (Talk)  
2023 AMS Annual Meeting, Denver, CO (Talk)  
2022 AGU Fall Meeting, Chicago, IL (Talk)  
\*2022 Atmospheric Chemical Mechanisms, Session: “Mechanism Development and Reduction”, UC Davis (Talk)  
2022 AMS Annual Meeting, Virtual (Talk)  
2022 10th International GEOS-Chem Meeting, Washington University in St. Louis (Talk)  
\*2022 ECMWF Machine Learning Workshop (Talk)  
2021 AMS Annual Meeting, Virtual (Talk)  
\*2020 AGU Fall Meeting, Virtual (Talk)  
2020 Atmospheric Chemical Mechanisms Conference, Virtual (Talk)  
2019 AGU Fall Meeting, San Francisco, CA (Poster)  
2018 AGU Fall Meeting, Washington D.C. (Poster)

## TEACHING EXPERIENCE

---

**Harvard University** Department of Earth and Planetary Sciences

EPS 200: Graduate-level Atmospheric Chemistry and Physics

Teaching Fellow

Fall 2019, Fall 2020, Fall 2022

Guest Lecturer

Fall 2022

Derek Bok Center for Education & Learning

Teaching Certificate

2023

**Reed College** Department of Chemistry

Chem 101: Molecular Structure and Properties

Chem 102: Chemical Reactivity

Chem 230: Environmental Chemistry

Laboratory Teaching Assistant

2015-2016

Tutor, Grader

2013-2016

## RESEARCH ADVISING

---

### Undergraduates:

- Rebecca Sandoval (Summer 2024, University of California, Santa Barbara): *“Dynamics and trends of nighttime fires in North America”*
- Lyna Kim (Spring 2024 –present, Stanford University): *“Physically interpretable machine learning for climate and weather forecasting”*
- Christian Chiu (Summer 2023 – Fall 2023, Harvard University): *“Uncovering latent VOC emissions and spatiotemporal drivers of urban ozone in changing NO<sub>x</sub> regimes”*
- Karina Chung (Summer 2023 – Fall 2023, Harvard University): *“Google Earth Engine applications for wildfire smoke risk in the Western United States”*
- Greta Schultz (Summer 2023, University of Wisconsin-Madison): *“Emergency mobile monitoring for California wildfire smoke”*
- Timothy Fargiano (Summer 2022 – Fall 2022, Harvard University): *“Optimal placement of PM<sub>2.5</sub> air quality sensors in the US: An approach to target environmental injustice”*
- Margaret Schultz (January 2022 – December 2022, Harvard University): *“Real-time high-resolution down-scaling of fine particulate matter (PM<sub>2.5</sub>) air quality in the United States using machine learning”*, year-long environmental engineering senior thesis ([senior project spotlight](#))
- Sanjna Kedia (Summer 2022, Harvard University): *“Machine learning for automated detection of wildfire smoke in the US”*
- Samuel Lin (Summer 2021- Fall 2021, Harvard University): *“Optimal air quality sensor placement in the United States”*
- Marie Panday (Summer 2021, University of Maryland): *“Trends in and Reconstruction of Smoke Days across the United States”*
- Kent Toshima (Summer 2020 - Summer 2021, Harvard University): *“Application of deep learning to detection of wildfire smoke in HMS over North America”*
- Miah Caine (Summer 2020 - Spring 2021, Harvard University): *“Agreement between the HMS Product and Ground-Level Smoke in the Pacific Northwest”*

## SYNERGISTIC ACTIVITIES

---

**Session Convener** at AGU Fall Meeting:

“Prescribed Fires and Land Management in North America”, primary convener (*Dec 2023*)

“Data-Driven Methods for Quantifying Atmospheric Composition: Advances in Computation and Statistical Learning”, co-chair (*Dec 2023*)

**Co-Chair** for Tropospheric Ozone Assessment Report, Phase II (TOAR-II) Machine Learning for Tropospheric Ozone (ML4O3) Working Group (*March 2023 – Present*)

**Co-Chair** for Atmospheric Chemistry Gordon Research Seminar (GRS) (*Summer 2025*)

**DEI Liaison** on behalf of postdocs in the Stanford Earth System Science Department (*2023-2024*)

**Technical Program Committee** for Atmospheric Chemical Mechanisms conference (*Dec 4-6, 2024*)

**OSPA Judge** at AGU Fall Meeting (*Dec 2023*)

**Proposal reviewer** for *NASA Earth Science ROSES Program* (2022), *NSF* (2023, 2024), *Spark Climate Solutions* (2024)

**Co-leader** of [Statistical Learning in Atmospheric Chemistry \(SLAC\) group](#), seminar series (2022 – Present)

**Co-leader** of Machine Learning & Data Science Subgroup, Harvard Atmospheric Chemistry Modeling Group (2021 – 2023)

**Peer reviewer** for *Atmospheric Chemistry and Physics*, *Environmental Research Letters*, *JAMES*, *GeoHealth*, *Environmental Science & Technology*, *Earth’s Future*, *ACS Earth and Space Chemistry*, *ES&T Air*, *Geoscientific Model Development*, *Communications Earth & Environment*, *Environmental Research Communications*, *Atmospheric Pollution Research*, *Environmental Data Science*

**Organizer** EPS Department G2 Quads Buddy Committee (2020-2021)

**Organizer** EPS Department Visiting Scholar Lecture Series Committee (2018 – 2019)

**Press:**

- Online machine learning in GEOS-Chem: [Editor’s Highlight in JAMES](#)
- Prescribed fires: [Press release](#), [Harvard Gazette](#), [KCRA Sacramento](#), [CBS Newspath](#), [Missoulian](#)
